Web 2.0 im Unternehmen

SharePoint Philosophie

- Plattform bietet Basisfunktionen
 - Blogs, Wiki, MySites, Diskussionsforen
 - RSS, Metadaten, Abos, MashUp
- Erweiterungen über Community-Lösungen
 - Faceted Search, Podcasting Kit
 - CKS:EBE, Codeplex
- Erweiterungen von Drittanbietern
 - Tools und Lösungen (MatchPoint)
 - Integration (Community Server, SocialSites)
 - Instant Messaging (Office Communicator)

Free W20 Tools

- Community Kit: Enhanced Blog Edition
 - The Enhanced Blog Edition (EBE) is a SharePoint 2007 solution package which extends the out-of-the-box blog template with the several features: themeing, spam control, RSS, linkbacks and many more.
 - [CKS:EBE Enhanced Blog Edition 2.0 Final Release](#)
 - List of more [CKS:EBE resources](#)
 - List of [blogs using the CKS:EBE](#)
- Community Kit: Enhanced Wiki Edition
 - The Enhanced Wiki Edition (EWE) is a SharePoint 2007 solution package which extends the out-of-the-box blog template with the several features: themeing, spam control, RSS, linkbacks and many more.
 - [Enhanced Wiki Edition 2.0 Beta 2](#)

Free W20 Tools

- Tagging
 - Have you used del.ci.ous or technorati? Tagging can help users easily identify the data which is relevant to what they are looking for. The tag cloud is the semantic map of the contents in your site, which can quickly tell us what's popular in your site. These tools implement tagging features in your SharePoint blog, wiki or team sites.
 - [Tag Cloud and Tag Browser Web Parts for WSS 3.0 MOSS 2007 \(Instructions\)](#)
 - [CodePlex Tag Cloud 1.2](#)
- Taxonomy
 - Taxonomies (Metadata) can be created and used within a site to classify documents and list items. Then these items can be filtered, indexed and queried.
 - [Taxonomy-Tagging 1.0](#)
 - [RAPID for SharePoint Community Edition](#)
 - [RAPID for Sharepoint Business](#)

Free W20 Tools

- Faceted Search
 - MOSS Faceted Search is a set of web parts that provide intuitive way to refine search results by category (facet).
 - [CodePlex Faceted Search V2](#)
 - Faceted Search [How to install](#)
 - Faceted Search [How to configure for BDC](#)
 - [Open Source Faceted Search for MOSS 2007 and Microsoft Search Server 2008 - Part 1 of 2](#)
 - [Open Source Faceted Search for MOSS 2007 and Microsoft Search Server 2008 - Part 2 of 2 Background](#)

Free W20 Tools

- **Role Based Templates for MySites**
- Role-Based Templates for SharePoint My Sites are custom templates, designed for Office SharePoint Server 2007 and the My Site functionality, and tailored to address the unique needs and requirements of specific roles within an organization.
 - [Role-Based Templates for MySites Overview](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for IT Managers](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for Administrative Assistants](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for Controllers-Financial Analysts](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for Customer Service Managers](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for Marketing Managers](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for HR Managers](#)
 - [SharePoint Server 2007 Template: Role-Based My Site for Sales Account Managers](#)
 - [All Role-Based MySite Templates in one Download Package](#)

Free W20 Tools

- Org Chart Web Part
- [AA OrgChart Webpart \(V 2.0\)](#)
 - AAOrgChartWebPart comprises of a very simple and intuitive user interface that allows easily search, locate, navigate and get essential contact information of employees and managers and find out reporting structure and hierarchy of an organization. AAOrgChartWebPart consists of three connected web parts (Employee Locator, Employee Navigator and Organization Chart) that together provide main contact information and reporting structure of an organization.

Free W20 Tools

- Discussion Forums

- [Lightningtools SharePoint Silverlight Forums](#)

- Silverlight enhanced UI for the SharePoint discussion lists - see [demo video](#)

- [SharePoint Forums Web Part by Tobias Zimmergren](#)

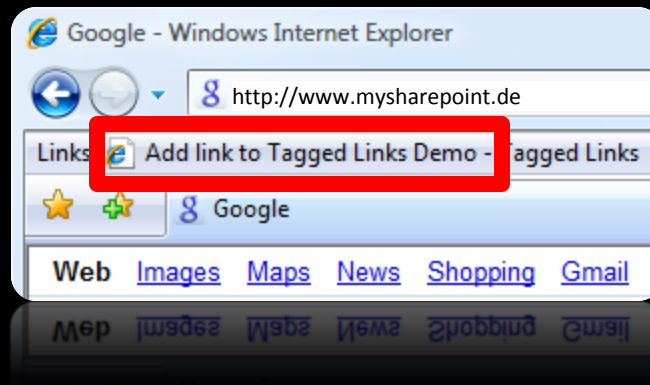

- A discussion forum implemented in a web part (no release until now (5/28/08))

zevenseas Tagged Links - \$250.00 - SharePoint Tools

Contributor: zevenseas

Product SKU: pm67326sptdl1

The screenshot shows a web browser window displaying a SharePoint site titled "MyDemoSite" with a "Tagged Links" page. The page features a navigation sidebar on the left with options like "View All Site Content", "Documents", "Links", "Discussions", "Sites", and "People and Groups". The main content area is titled "Tagged Links" and includes a search bar and a "Tag Cloud" dropdown menu. Below the search bar, there are sections for "Site Tags" and "Global Tags". The "Site Tags" section lists various tags such as "CKS Solution Development", "SharePoint", "Microsoft", "zevenseas Technical", "CKS-ISE Consulting Blog", "Global Tags", and "Technology Solutions". The "Global Tags" section lists "Technology Solutions" and "Customers". A table of links is displayed, with columns for URL, Created, Author, and Comments. The table lists various links related to SharePoint, including Microsoft Office SharePoint Server, Microsoft SharePoint Products and Technologies Team Blog, Community Kit for SharePoint - Home, and CKS-ISE Search Addon.

SharePartXXL Taxonomy

The screenshot displays a SharePoint list interface. At the top, there are navigation tabs for 'New', 'Actions', and 'Settings'. The current view is set to 'By Content Type'. The list contains two main categories: 'Type Of Content : Contact (1)' and 'Type Of Content : Document (3)'. The 'Contact' category has one item, and the 'Document' category has three items. A dropdown menu is open on the right side, showing various view options. The 'By Content Type' option is highlighted, and a mouse cursor is pointing at it. Other options include 'Default', 'Approve/Reject Items', 'By Approval Status', 'By Creator', 'By Modification', 'By Source List', 'Calendrical', 'My submissions', 'Related Items', 'Modify this View', and 'Create View'.

MashUps

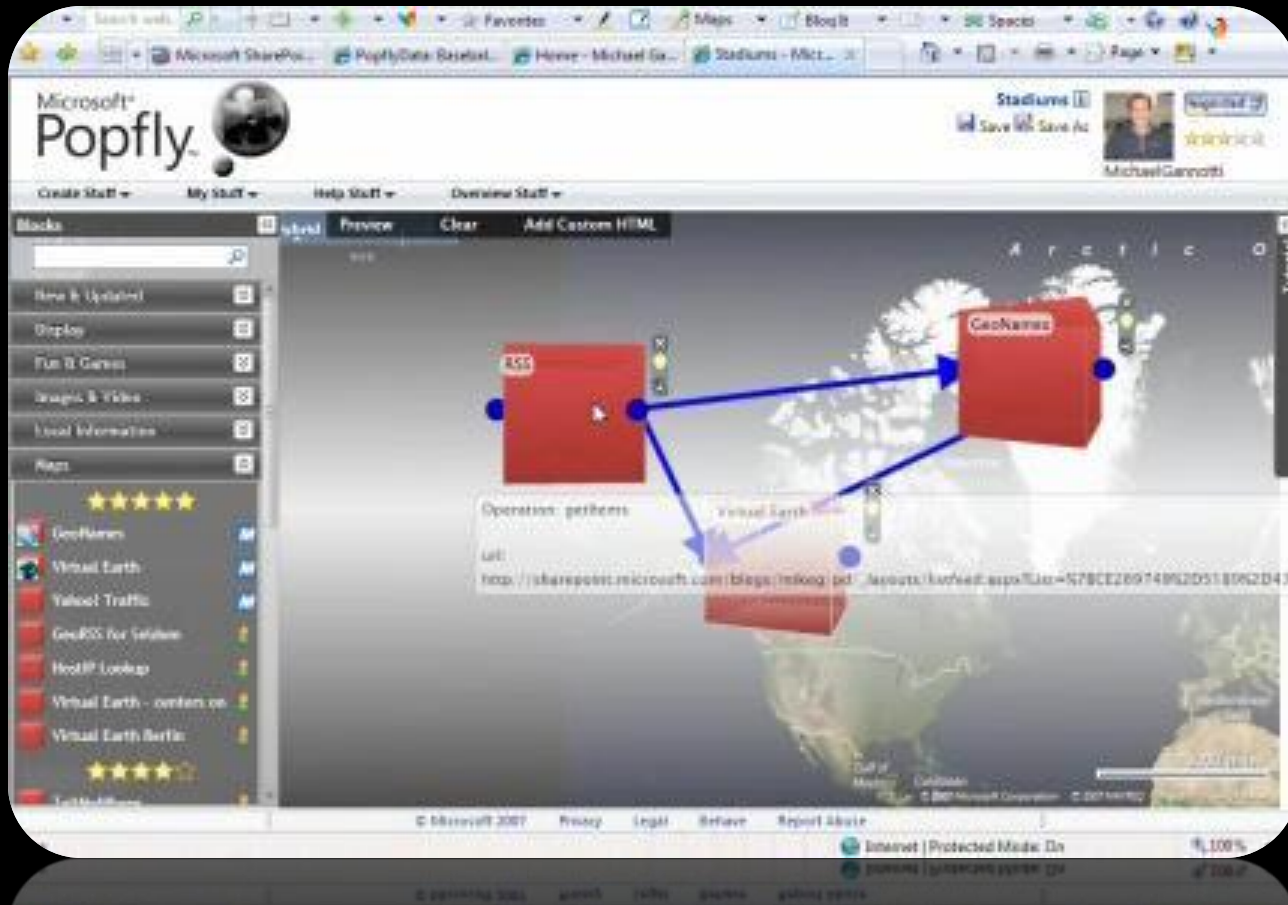

- Webpart Verbindungen
- SharePoint Designer 2007
- Demo: MashUp SharePoint und Virtual Earth
- Demo: SharePointlive.TV
- PopFly

Popfly

The screenshot shows a web browser window displaying the PopflyData application. The page title is "Baseball Stadiums". A search bar at the top right contains the text "The List: Baseball Stadiums". On the left side, there is a navigation menu with categories: "View All Site Content", "Features" (with a sub-item "DesignViewTest"), "Documents", "Links" (with sub-items "LOCATIONS", "Baseball Stadiums", and "Other Content To"), "Discussions", "Sites", and "People and Groups". The main content area displays a table of baseball stadiums with columns for "Title", "Coordinates", "Team", "City", "State", and "ZipCode". The table lists five stadiums: Yankee Stadium, Fenway Park, Camden Yards, US Cellular Field, and Angel Stadium.

Title	Coordinates	Team	City	State	ZipCode
Yankee Stadium	E 164th St & River Ave	New York Yankees	Bronx	NY	10461
Fenway Park	47Yankee Way	Boston Red Sox	Boston	MA	02215
Camden Yards	333 West Camden Street, MD	Baltimore Orioles	Baltimore	MD	21201
US Cellular Field	333 West 35th Street	Chicago White Sox	Chicago	Illinois	60618
Angel Stadium	3000 Gene Autry Way	California Angels	Anaheim	CA	92806

PopFly

PopFly

The screenshot shows the Microsoft Popfly web application. At the top left is the "Microsoft Popfly" logo. To the right, there is a "Stadiums" section with a "Save My Save As" button and a profile picture of Michael Gemmott. Below the header are navigation links: "Create Staff", "My Staff", "Help Staff", and "Overview Staff". The main content area features a map of the United States with a pop-up window for "Angela Stadium". The pop-up contains the following information:

- StreetAddress: 2000 Game Bldg
- City: Anaheim
- State: CA
- ZipCode: 92706
- Information: [California Angela](#)

The map also shows various other locations marked with red pins across the United States. At the bottom of the browser window, the address bar shows "angelunb.com/" and the status bar indicates "Internet | Protected Mode: On" and "100%".

This block is a vertical reflection of the screenshot above, showing the same Microsoft Popfly interface and map data mirrored across the bottom of the image.

MashUpDemo

- Verbindung SharePoint-Listen-Daten mit Virtual Earth Maps
- SharePoint Designer 2007

Zusammenfassung

- Enterprise 2.0 = Web 2.0 + Security + Relevanz
- SharePoint Basis für E 2.0 Lösungen
- Grundfunktionen out of the Box
- Erweiterungen über
 - Free Tools
 - Drittanbieterlösungen
